### PROFILE SUMMARY

An Information Systems undergraduate at Gunadarma University (expected to graduate in 2027), currently active as a Laboratory Assistant since December 2024. As a web development enthusiast, I began my journey building websites using HTML, CSS, and JavaScript. I am currently expanding my skill set by exploring SAP ABAP and enterprise-level systems. With hands-on experience and a strong problem-solving mindset, I aspire to become a professional SAP Developer, combining my background in web technologies with a strong interest in enterprise systems and ABAP development.

### AREA OF EXPERTISE

Frontend Development (HTML, CSS, JavaScript, React)	Backend Development (Node.js, Express.js)	SAP ABAP (Basic), S/4HANA, SAP BTP (Exploring)
Version Control (Git), VS Code, Eclipse ADT	Responsive Design, Debugging & Problem Solving
